25X1 MEMORANDUM FOR: [REDACTED] (Office of
the Deputy Director for Support)

SUBJECT : 100 Universities Program

1. Our recruiters are now apparently confused by Domestic Contact Service having second thoughts, as it were, about the advisability of running the 100 Universities Program this Spring. As a matter of fact, several of our recruiters were of the opinion that DCS would be selecting the colleges to be visited. Other recruiters, however, are proceeding with "tentative" plans while awaiting firmer guidance from Headquarters.

2. My thought is that if we are going to run this program this year, we should make that decision once and for all and give the recruiters the word this week. Further, we are going to have to direct the recruiters and DCS to take on this chore and get on with it, even to the extent of naming the schools ourselves, if necessary. I refer you to the

UNITED STATES GOVERNMENT

Memorandum

CONFIDENTIAL

TO : DD/PERS/R&P

DATE: 1 March, 1967

25X1 FROM :

[redacted]

SUBJECT: 100 Universities Program

I certainly approve of the new procedure in respect to the DCS personnel and their providing the logistics support.

I would be remiss in not letting you know that I frankly do not know of any school in my area where such a meeting would be received very well. The atmosphere is almost hostile in certain areas and I frankly believe that any such program would result in no one accepting an invitation or else they would descend and really try to crucify the

25X1 speaker. I know that [redacted] was not to be included but [redacted] called 25X1 me the other day to tell me that he had been approached by a representative from the New Republic who inquired about his relationship with the Agency. During our conversation I mentioned the dinners and he said

25X1 don't even think about having one [redacted] since it would be a disaster. Even during good times the questions were rough so I imagine this year

25X1 they would not give any quarter to a speaker. Also [redacted] and company [redacted] have advised 25X1 against the program. Thus I pass this information to you for what it is worth.
